

IUPUI

SCHOOL OF SCIENCE

Department of Computer and Information Science

Ph.D. in Computer and Information Science

Graduate Admissions Guidelines

Applicants must have a four-year bachelor's or equivalent degree. We place great weight on the quality of the institution. The applicant must have adequate computer science background, as determined by the admissions committee.

Applicants who begin a graduate program in computer science at another institution should complete at least a year in that program before applying to us. If the program is a master's program, we normally require completion of the program before registration here. If the program is a doctoral program, we ask for evidence of eligibility to continue that program.

We expect our entering students to have a grade point average (GPA) equivalent to at least 3.00 (A = 4, B = 3, C = 2, D = 1, F = 0) in all their courses as well in computer science and mathematics courses. If the institution does not use a letter grading system and does not publish an official algorithm for converting its grades to such a system, then we expect applicants from it to be in the top ten percent of their class.

Application Deadlines

Fall Admission: January 15

Spring Admission: September

15 Application Process

Complete the [online application](#) and then complete the following items and mail them to the Department of Computer and Information Science:

- Official transcripts and evidence of degrees awarded (with English translation), if necessary
